

PREVENT CHILD ABUSE AMERICA BOARD OF DIRECTORS

Prevent Child Abuse America (PCA America) is working to end child abuse and neglect by supporting families before they reach crisis.

Why does prevention matter? A child's early experiences impact him or her throughout life. Children raised in safe, stable, and nurturing environments are more likely to be healthy and thrive physically, emotionally, and academically—contributing to economic prosperity for everyone.

Our success is founded on a nationwide network of state chapters and nearly 600 Healthy Families America home visiting sites. We reach millions of families every year across the country, providing parents and caregivers with a variety of direct services—with proven benefits for children and their parents. We work for family-friendly policies and lead research to find what works best for kids and families.

What is the PCA America Board of Directors?

We all have a role to play in creating a better future for every child. The PCA America Board of Directors is a select group of corporate and civic leaders and subject matter experts who support the mission of the organization through:

- Promoting Prevent Child Abuse America's mission and purpose
- Assisting in generating new philanthropic support and earned income
- Ensuring organization's fiscal sustainability
- Sharing personally acquired knowledge, skills, and resources to bring desirable results to organizational initiatives

What are the Board of Director's requirements?

- Four two-year renewable terms
- Attend and participate in four Board of Directors meetings, including two in-person meetings in Chicago
- Service on two board committees: Executive, Operations, Governance, Programs and Research, Chapters and Policy, and Resource Development
- Recommended give/get of \$10,000
